

Three Polaroid-style photographs of astronomical objects are displayed against a dark background. The leftmost Polaroid shows a bright, circular field of view filled with numerous stars of varying magnitudes. The middle Polaroid shows a detailed view of the Moon's surface, highlighting its craters and maria. The rightmost Polaroid shows the Helix Nebula, a glowing, ring-shaped structure of gas and dust in space. Each Polaroid has a white border with text printed on it. The text on the left Polaroid reads 'The Royal Society Academy of Sciences (RSA) / RSA / London'. The text on the middle Polaroid reads 'Mars'. The text on the right Polaroid reads 'NASA / NASA RSA (The Helix Nebula, Helix Ring)'.
